County Attorney Objects—The sheriff's department has arrested two men on the charge of battery and the county attorney has refused to draw up a complaint, claiming the city must prosecute the case. Sheriff Peterson claims that the county attorney should prosecute. It is probable the county commissioners or the attorney general will be appealed to for a ruling on the situation.

Logan Theater—Plans of D. Leo Madsen, an Ogdan architect, for the proposed new theater at Logan have been accepted by Victor S. Amussen of Salt Lake, who will build the theater. The new structure will give Logan an up-to-date show house which will stage the biggest road show and provide an excellent ballroom and social hall. The house will seat 1,000 people and will be built so that a gallery can be added if needed. There will be store rooms in addition to the stage on the ground floor, and a ballroom and social hall on the second floor. The building will occupy 60 by 110 feet of ground space. Modern dressing rooms, orchestra pit, scenic facilities and stage will be included in the equipment of the new theater.

FIRST OGDEN BOY KILLED IN FRANCE WAS FORMERLY A MACHINIST IN S. P. SHOPS

On Saturday, November 10, George Kenley Liddell of Ogdan was killed in action in France. This is Ogdan's first tragedy of war and the first contribution in blood to the cause of democracy.

An official message was received this morning by Alex Liddell and wife, 318 Franklin avenue, announcing the death of their son "somewhere in France," presumably at the fighting around Ypres.

George Liddell was a machinist in the Southern Pacific shops up to three years ago, when he went to Belleville, Ill., and from there crossed the border, and a year ago joined the Canadian forces, leaving with the 190th battalion. When word was received

from him last October, he was with the Eighth Canadian battalion behind the lines in France.

He came of fighting stock. His grandfather, George Kenley, Sr., was a Crimean war veteran, and his uncle, George Kenley, Jr., was captain of a gunnery on board the admiral's flagship "Alexandria" at the bombardment of Alexandria, Egypt.

George was born in Salt Lake, March 29, 1895, but he lived in Ogdan most of his life. He is survived by his father and mother, and the following brothers and sisters:

Nellie, Thomas M., Nestor, David W., Theresa M., Flora, Julia, Nancy and Nondas; also two uncles, William Kenley and Fred Kenley.

CANNERS UP IN THE SIXTEEN TRAINS OF

AIR OVER PROPOSED SOLDIERS CROSS

CROP PRICES CONTINENT

Webster County canners met yesterday afternoon and stayed in session until late last night discussing the proposed schedule of prices offered by the farmers of Webster county for crops to be canned. H. L. Herrington, president of the Utah Canners association, would give no statement this afternoon on the stand the canners had taken.

It is thought that the food packers will remain non-committal and see what the government intends to do with the canning business.

The farmers have held a series of meetings and considered the problem of raising products for the canners from every angle. They decided, after much investigation, a schedule of prices for their food stuffs and proposed the schedule to the canners. Whether it was received with any degree of satisfaction the canners would not state.

Members of the association said today that the canners were not certain of their ground and there is a prospect of government monopoly of the industry and the government would then, in all probability, propose the prices to be paid and charged so that any attitude they might take now would not be final.

The Pullman company has established "war headquarters" at Washington, and has already supplied sleeping cars for the movement of half a million men.

To assure the safety of soldiers in transit, the railroads have adopted an average speed of twenty-five miles an hour for all troop trains except when freight cars are included, when the speed is reduced to twenty miles an hour.

EAGLES TO GIVE A SMOKER, DEC. 1

A most attractive smoker has been arranged by the Eagles, to be held in the club gymnasium next Saturday night. There will be eighteen rounds of boxing, besides some exhibition bag punching and Indian club swinging. This promises to be one of the big athletic events of the winter season, so far as amateur boxing is concerned.

The main bout of six rounds will be between Billy Johnson and Jeff O'Connell. These two are well matched and each predicts he will be the only one standing up at the final gong sounds. Then there are three bouts of four rounds each. These are: Young K. O. Brown and Young Goody; Whitey Johnson and Bill Burmen; and Kid Koko and One-Round Jack. What these amateurs lack in science and ring experience they make up for in the fierceness of their battling, as those who have attended other events of the kind can testify.

The former smokers have afforded a good deal of fun for the spectators and that is the main object the Eagles' lodge has in conducting them. More interest is being shown in these athletic events, according to C. E. Carlie, president of the lodge, since the gymnasium was thrown open to the public and he predicts that when an athletic instructor has been secured, the events given in the gym will be still more popular.

Chicago, Nov. 26.—Notices of heavy shipments from rural sources had a bearish effect today on the corn market. It was said also that Omaha was turning consignments to Chicago. Dry, cold weather, likely to improve the quality of the crop, tended further to ease prices. Opening figures, which ranged from 1/4 to 1/2c lower with January \$1.20 1/2 to \$1.21, and May \$1.18 1/2 to \$1.19, were followed by a rally, but fresh weakness quickly developed. Oats were relatively firm. Absence of selling pressure was the chief feature, especially in the December option.

Lower prices on hogs pulled down provisions. A good demand for ribs, however, sprang up after the market had undergone a moderate decline.

CHICAGO, Nov. 26.—The week in the stock market, opened with a general rally from last Saturday's moderate depression. War shares, shipping and specialties gained 1 to 1 1/2 points and Union Pacific featured the irregular rally, advancing 1 1/4 points. General Electric was reactionary, however, on the new financing of the company, yielding more than 2 points. General Motors and Pullman were included among the other heavy issues. Liberty bonds showed little change.
